Puzzle Details:

Four friends were competing in the internationally renowned Brain Bashers Bog Snorkeling competition. As usual, the judges were a little careless and once again, they managed to lose the results. Luckily, a number of spectators were able to remember the following snippets of information:

Only one person wore the same number as the position they finished.

Gary, who didn't wear green, beat Barry.

Larry beat the person who wore yellow.

The person who wore number 3, wore green.

The person who wore number 2 finished first whereas Harry came last.

The person who finished second wore green, Barry wore yellow and the person wearing red beat the person wearing blue.

Can you work out who finished where, the number and color they wore?

Hint & Answers: No Peeking!

Answer:

#	Name	Wore	Color
1	Gary	2	red
2	Larry	3	green
3	Barry	1	yellow
4	Harry	4	blue

Hint: Harry wore number 4.

2016 Mixed USBC

In 2016, the [World Bridge Games](#), to be held in Wroclaw, Poland from September 3 through September 17th, will include a Mixed Teams event. USBF will hold a hybrid online & face-to-face selection event, the 2016 Mixed United States Bridge Championship. The USBF Tournament Committee is working on the details of the competition, but what we expect is that it will be in 3 stages:

1. An online Swiss Teams event to be held on BBO on Saturday & Sunday, July 9 & 10, 2016. Any USBF member who has paid dues for 2016 may enter this event. The exact format will be determined by the number of teams. Each player will be required to provide a monitor, who will sign a statement that the player did not communicate with anyone during play and did not have any window other than the BBO playing window open during play.
2. Online Knockout Rounds of 16 and 8 on BBO on Saturday & Sunday, July 16 & 17 (teams in the Round of 16 may arrange to play their match earlier than July 16). The top 16 teams from the Swiss stage will participate, and they will be seeded in the order of finish in the Swiss. Each match will probably be 64 boards long, but that has still to be finally determined. Each player will be required to have a monitor, who will have to be approved in advance and may have to be an ACBL certified director. The monitor will sign a statement that the player did not communicate with anyone during play and did not have any window other than the BBO playing window open during play. Arrangements may be made for multiple players to compete at a local bridge club.
3. Face to face Semi-Final and Final matches to be played in Washington, DC on Aug. 1-3 (the three days after the Summer NABC). These matches will be 90 boards long. We hope to arrange space for this stage of play at the NABC tournament hotel, but are still working on that.

ENTRY INFORMATION

Entries are now open and will close on June 27th, 2016; additional entries will be accepted after June 27th, but only if those additional teams will improve the format of the event.

ENTRY FEES

Entry fees for this event will be lower than for the Open, Senior & Women's events, because USBF costs will be lower. The tournament committee has not yet determined the exact entry fees. Best guess right now is that there will be an event entry fee of \$240 per team, and no additional fees until the Semi-Final. Players will, however, be required to compensate their monitors and to pay any fees that local bridge clubs may charge if they play at a local club. Session fees for the Semi-Final and Final will be the same as for other USBF events - \$150 per team per session, so \$450 for each stage.

This hand demonstrates why it is generally best to “get it off your chest” by bidding your maximum as soon as possible.

Sanborn opened 1NT with the South hand. Since double by West would be conventional (generally showing a two suiter), Deas chose to pass. Levitina transferred to hearts. Sanborn had an aceless maximum with KQxx of hearts. If she jumped to three hearts (or made some other super-acceptance), Deas would have been stuck for a bid. She could choose to make a risky takeout double or could pass and defend. If Deas doubled 3H for takeout, Chambers would probably bid a simple 3S. When Sanborn bid only 2H, Deas had an easy two-level takeout double. When Sanborn backed in with 3H, Deas was able to show her 19 HCP by doubling again, and Chambers, knowing that partner was unlikely to hold four spades, made a wise pass to collect 800.

At the other table, Molson opened 1NT with the South hand. Rather than passing her 19 count, Baker bid 2NT for the minors. McCallum responded 3C, making five.

Double	Pass	3C	Double
All Pass			

The Palmer team was full steam ahead when an aggressive action by Shi handed the opponents a 12 IMP swing.

When Baker took a preference to 2H, Shi jumped in with a double, even though she did not know where the auction was going. If 2H is passed around to the East hand, her partner can balance with values and the right shape.

Since South did not raise hearts initially, it is likely that East has a three card heart holding, which makes declaring less attractive than defending. Alternatively, North might have had a good hand and bid again over 2H. If that is the case, staying out of the auction is the better part of valor.

(Continued on page 8)

(Continued from page 7)

When Shi doubled, Palmer bid her three-card club suit and Baker knew what to do. Baker led a heart which Palmer ducked. A second heart was won by Palmer, who, hoping to score a spade ruff in her hand, decided to exit with a spade to North's ten. McCallum cashed a heart on which Baker pitched a spade. McCallum played the SA followed by the S7. Palmer ruffed with the C7 and Baker over-ruffed with the C8. At this point Baker can collect 1100 by exiting with a diamond. Instead, she played a high club and Palmer escaped for 800.

In the other room, Sanborn passed with Shi's cards and N/S played in 2H making an overtrick.

The final board of the fifth segment provided real fireworks. At both tables, West opened 1H. North held seven good spades and five mediocre diamonds. Showing a sharp contrast in styles, Sokolow bid 1S while McCallum made a Michaels cue-bid. Perhaps Sokolow was planning to "walk the dog", and McCallum trying to find the perfect spot?

Sokolow's plan worked well because Levitina decided to make an aggressive cuebid in support of hearts. Holding 18 HCP, lots of controls and a six card suit, one can hardly blame Sanborn for blasting to slam when partner showed two aces. If partner held a black queen, slam would probably have a play, even with the poorly placed king of spades. Optimism didn't pay off, and 6H was defeated one trick.

McCallum's two suited view really backfired! East's 4H bid showed nothing extra, since she could have cuebid 2S with a better hand. Shi passed and McCallum had no choice but to bid 4S, something that both Norths probably should have done on the previous round of bidding. Baker could pass and play McCallum for a 6-5 hand, but what if McCallum's second suit was clubs? Baker bid 4NT asking for McCallum's minor. Now McCallum was stuck in 5SX, which was defeated three tricks.

On this layout, if North bids 4S over 1H, West will balance with double and E/W will probably land in the standard 5H contract, but who knows? Making the opponents guess at the five level is usually the best strategy. 13 IMPs to Palmer
